| Ongoing | One-Time | FTEs | Potential Source of Funds |
|---------|----------|------|--|
| | | | Housing Trust Fund or Project Connect Anti-Displacement Funds |
| | | | |
| | | | |

Additional Information

Pilot Displacement Navigator Program: The City would contract with community based organizations to work with and inform residents in impacted areas of the various housing resources that are available to them. This program would be broader than outreach, as it also provides education and one-on-one assistance for households to apply for services within the City to protect them from displacement. Staff is directed to provide an update on the development and implementation of this pilot program to City Council by November 1, 2021.
